Articles related to Closed-Form Solutions for Discreet Lattice Truss Structures

1. Lattice Truss Structural Response Using Energy Methods, NASA-TM-112361, 1996, Winfred S. Kenner
2. Soft Lattice Truss Static Polynomial Response Using Energy Methods, AIAA Journal, Vol. 36, No. 6, June 1998., Winfred S. Kenner and Norman F. Knight
3. Design and Nonlinear Closed-Form Displacement Expressions of Low Stiffness Lattice Truss Beam Structures, AIAA Journal, Jan 2018, Winfred S. Kenner
4. Component Count and Preliminary Assembly Considerations for Large Space Truss Structures, Feb 1990, Technical Memorandum, W. Scott Kenner, Marvin D. Rhodes, and W. B. Fichter

Finite Element Reference Books

1. Introduction to Finite Elements in Engineering, Prentice-Hall, Inc., 1991., Tirupathi R. Chandrupatia and Ashok D. Belegundu
2. An Introduction to the Finite Element Method, Second Edition, McGraw-Hill, Inc. 1993, J. N. Reddy
3. Energy and Finite Element Methods in Structural Mechanics, Hemisphere Publishing Corporation, 1985., Irving H. Shames and Clive L. Dym

Articles related to Continuum Modeling of Discreet Lattice Truss Structures

1. Structural Stiffness, Strength, and Dynamic Characteristics of Large Tetrahedral Space Truss Structures. NASA TM X-74001, 1977, Martin M. Mikulas Jr., Harold Bush, and Michael F. Card
2. Continuum Models for Beam and Plate-like Lattice Structures. AIAA/ASME 19th Structures, Structural Dynamics and Material Conference, Bethesda, Md., April 3-5, 1978, Ahmed Noor, Melvin S. Anderson, and William H. Green
3. Continuum Models for Repetitive Lattice Structures with Rigid Joints, Master's Thesis, George Washington University, 1979, Michael P. Nemeth
4. Continuum Modeling of Large Lattice Structures - Status and Projections, NASA TP 2767, February, 1988, Ahmed K. Noor, Dr. Martin M. Mikulas Jr.
5. On the Analysis and Design of Uniform Truss Structures, Doctoral Dissertation, North Carolina State University, 1992, Mark S. Lake
6. Continuum Modeling of Three-Dimensional Truss-Like Space Structures, AIAA Journal, Vol 16, No. 8 August, 1978, pp.779-787., Adnan H. Neyfeh, Mohamed Samir Hefzy
7. Dynamic Characteristics of Statically Determinate Space-Truss Platforms, AIAA Journal of Spacecraft and Rockets, Vol. 23, May-June, 1986, pp. 303-307, Melvin S. Anderson, N. A. Nimmo

Articles Related to Fabrication, Assembly, and Experimental Testing of Lattice Truss Structures

1. Structural Analysis and Testing of an Erectable Truss for Precision Segmented Reflector Application, NASA TP 3518, July, 1995, Timothy J. Collins, W. B. Fichter, R. R. Adams, M. Javeed.
2. A Comparison of Two Trusses for the Space Station Structure, NASA TM 4093, March, 1989, Thomas R. Sutter, and Harold G. Bush
3. ACCESS (Assembly Concept for Construction of Erectable Space Structure) - A Shuttle Flight Experiment, Conference Paper (SEE A86-32526) Jan 1, 1985, Walter L. Heard Jr.
4. Results of the ACCESS Space Construction Shuttle Flight Experiment, AIAA Paper 86-1186, Jan 1, 1986, Walter L. Heard Jr., J. J. Watson, J. L. Ross, S.C. Spring, M. L. Cleave

Solid Mechanic Reference Books

1. Theory of Structures, McGraw-Hill Book Co., 1965, Stephen P. Timoshenko and D. H. Young
2. History of Strength and Materials, Dover Publications, Inc., 1983, Stephen P. Timoshenko
3. Theory of Elastic Stability, Stephen P. Timoshenko, James M. Gere
